IN REPLY REFER TO:

20 November 1978

Dear Stan,

STAT It's been a long time between letters and, I note, just about four years since you were President of the Naval War College and visited New Orleans for a sail with [redacted] boat in Lake Pontchartrain. Little did I dream that four years hence I would be working for the Navy.

About two years ago, after Congressman Hebert retired from Congress, I became secretary to VADM Charbonnet at CNAVRES, and am now Administrative Assistant to RADM Palmer, his successor. When Admiral Palmer went up last week to attend the New York Navy League's annual dinner, I noted with pleasure that you were being honored and decided I would drop you a line to offer congratulations and tell you of my very pleasant affiliation with the Navy.

Of course, the many changes in your life continue to make national news and it's comforting to see you at the helm of the CIA.

My continuing best wishes to you, with

Best regards,

Virginia
